Water follows a mAGic cycle!

Rain from the clouds goes down through the soil into our aquifer. From there, it comes to our homes, rivers, and springs. The sun makes the water evaporate and it starts all over again.

It's mAGic!
Just Turn off the Tap!

Turning off the tap while brushing our teeth can save almost 4 gallons of water. That adds up to more than 200 gallons a month, enough to fill a huge fish tank that holds 6 small sharks!
