

BELLAMY BEAVER SAYS

Bees even need clean water

Bees need clean water, too! If water is dirty or polluted, it can make bees sick. By keeping rivers, ponds, and puddles clean, we help bees stay healthy so they can keep making honey and pollinating plants.

BELLAMY BEAVER SAYS

Turn off the Tap!

Bees need clean water just like we do! When we keep our water clean and remember to turn the tap off when we're not using it, bees stay healthy and can keep helping flowers, gardens, and crops grow. Remember to "bee" a conservator of water!

BELLAMY BEAVER SAYS

Help save the world!

When we take care of water, we are a superhero! Clean water keeps bees healthy, and healthy bees pollinate the plants that give us food and oxygen. By conserving water and protecting rivers and lakes, we're helping bees, people, and the whole planet.
